DIRECTORS NOTE

It has been said, "Charles Dickens' England was so large one could get lost in a small area and live a whole life completely hidden." So is the lot of the folks in tonight's tale. Dickens' concept of a teenager's search for meaningful existence during the troubled industrial revolution has captured the imagination of generations. Dickens named this young man Oliver Twist.

Oliver's story encapsulates the best of mankind in the worst of conditions. During the late 19th century, Oliver was immersed in the horror that existed in workhouses and on the streets of England. His pursuit of happiness led him into the world of many despicable people, who lend themselves wonderfully to caricature in musical theater! Perhaps Oliver only traveled single digit miles, but his journey's adventures unveiled an entire world of possibilities.

Not only is this the story of one young man's travels, but also of everyone's internal need to belong to a family. No matter what their differences, these families were bound in fiercely loyal ways. The Beadle and Widow Corney, The Sowerberrys, Bill and Nancy, Fagin's Tribe, Oliver's Grandfather...each display the inner need to hold onto family regardless of the cost.

This time honored story has some new twists (sorry I couldn't resist!). We invite you to nestle back and "consider yourself one of the family", as we unfold the journey of Oliver Twist.
